LOCAL NEWS.

Regular cash sale by Mr. J. Lyons at ten this morning.

One of the crew of the Forest Queen was hurt in the head yesterday by a falling brick. He was treated by Dr. McKibbin.

Rev. T. R. G. Peck, of New York, delivered an address at the Lyceum on Wednesday evening, in which he spoke highly of Honolulu hospitality as enjoyed by him.

The Superintendent of the Water Works calculates that the improvements caused by the fire of April 18th will result in increased water rates in that district to the amount of \$3,000 a year.

Mr. Frank Godfrey, of the Gazette, heroically grappled with a lamp that threatened explosion at the armory of the Honolulu Rifles the other evening, thus probably preventing a fire if not personal damage.

A Chinaman named Ah Sing was arrested yesterday, charged with burglary at the coffee house of Anin, on the night of the 22nd instant. His case was continued until the 28th instant unless moved on.

The Honolulu Rifles have taken a new lease of life under Captain V. V. Ashford. They are making rapid strides in proficiency, while the spirit of the corps is decidedly improved. Lieutenant Hebbard ably seconds the captain in his functions.

About 8 o'clock last evening, a little daughter of Mr. Pratt, of the Oceanic restaurant, Fort street, was playing on the balcony over the entrance to the restaurant, when, in the absence of the nurse, the child climbed to the top of the railing, and losing her balance fell to the ground, a distance of nearly twenty feet. Luckily she escaped without apparent injury.

Needed Water Supplied.

For two years the populous little settlement on the east side of King street, opposite Hon. J. I. Dowsett's residence, has been seeking to be supplied with water from the water works. The laying of the twelve inch main up Nuuanu valley, a few days ago, having made it feasible to grant the desired boon, the work of laying a four inch pipe to the place, connecting with the King street line, was begun this week and completed yesterday. Workmen under the supervision of Mr. Chas. B. Wilson, Superintendent of the Water Works, made the connection between the pipes in twenty-eight minutes, which was remarkably quick work, when two joints had to be cut and six made in that time. Residents of Palama who have all along been connected with the city system, it may be mentioned, have, since the laying of the new pipes up the valley, rejoiced in abundance of water day and night.

Renewing a Vessel.

Messrs. P. Butler and C. W. Bruce are making a fine job of the repairs to the schooner Hammonia, recently bought at auction by them. They are both practical shipwrights and are repairing the vessel in the Fish Market dock, with a view to keep and not to sell her. The timbers are in a much better state of preservation than was generally supposed at the time of the sale, being perfectly sound with the exception of a butt here and there. Ten new stanchions and eighteen iron knees have been put in, while the ceiling is being wholly renewed with three-inch plank and new planking put on outside above the copper line. The butts are also to be reinforced with long cleats, and the vessel is to be refastened from the keel up and caulked and coppered anew. With all these repairs, which are being made in the most thorough manner, the Hammonia will be one of the staunchest and trimmest craft in the Hawaiian fleet.

Arrival of Portuguese Immigrants.

The British ship Amara, Captain Becket, commander, arrived from Liverpool via Madeira and Coquimbo, yesterday afternoon. She sailed from Liverpool April 6th, and arrived at Madeira April 20th, when she took aboard 506 emigrants, including men, women and children. She remained at Madeira until April 29th, when she proceeded on her voyage around the Horn. Heavy gales and cold weather were experienced when rounding Cape Horn, compelling the emigrants to remain below for days at a time. After the severe weather experienced, the Captain decided to put into Coquimbo, Chili, to replenish his water and provision supplies. After remaining two days at Coquimbo, she continued her voyage, arriving here without further event. The voyage from Madeira to Coquimbo was made in 143 days, and from the latter place to Honolulu in 42 days. Four deaths (all children) and eleven births occurred on the passage. The Amara is a fine iron vessel, and looks comparatively clean considering the long passage just completed.

The Honolulu Iron Works.

If one wants to know what the hum of busy industry means, he should visit the Honolulu Iron Works, although hum is a feeble word to describe the metallic ring and rattle and roar of such an establishment. A HERALD reporter strolling near the works yesterday afternoon accosted the manager, Mr. Young, with a query regarding the amount of work now on his hands. In reply that gentleman said they had a large amount of work in hand, and then he led the reporter through the various departments and showed him what was being done. In the machine shop on the left of the entrance from Queen street, stood a graceful looking structure composed of pillars and arches supporting a scaffold, this being the framework of a sugar mill double effect, for Halawa, and it was nearly finished. Several contracts for double-crushing sugar mills are approaching completion, to be followed by a number more. Parts of huge machinery lay about so close together that it was difficult for a stranger to get through the place without a tumble or a collision. Reaching the moulding shop a gang of men were seen swinging a caldron of molten iron round on a crane to be emptied into a mould. Castings are made in heavy heats daily. The boiler shed and yard reveal activity in proportion to that in the other departments. Nearing completion were a pair of steel boilers for Nulii (Judge Hart's) plantation, Kohala, and one boiler of the same material to go with the double effect to Halawa. There was also a marine boiler about completed for the steamer C. R. Bishop. In the blacksmith shop every fire was filled, and there rose an incessant clangor from the anvils. Besides the regular new work, repairs are coming into the works daily. The hours of work are extended into the night, so that all patrons may have their orders executed when wanted. All the rushing of work on sugar machinery indicates anything but an early decline in planting operations, or that next year's sugar crop is estimated to be lower than this year's. There are employed in the works, all told, a hundred and eighty men, and the pay roll foots up over three thousand dollars weekly, most of which doubtless goes immediately into circulation among the storekeepers and tradesmen of the city. The benefit of having such an extensive industry established here is therefore apparent at a glance, indicating that it is for the general interest to have all the country's work possible done in the country. If home manufactures were more sedulously encouraged, probably there would be less frequent occasion for the complaint of dull times.

Supreme Court.

The holidays being past, the Judges are being pretty busily occupied in chambers. On Monday last Judge Preston heard a petition for probate in the estate of M. Kumalae, and ordered that letters of administration issue to A. Rosa under a \$200 bond, also that he be guardian of the person and property of Jacob K. Kumalae, a minor. In the law division the same Judge heard the case of Papaikou Sugar Co. vs. F. H. Austin. W. R. Castle appeared for the plaintiff; Jona. Austin for the defendant. Chief Justice Judd heard the bankruptcy case of Quong Yuen and Yock Kce, claims of \$5,308.16 being proved and W. C. Parke appointed assignee.

Tuesday, the Chief Justice, in the probate division, ordered that the final account of Makoa Kupu, administratrix of the estate of Ephraim Kupu, be approved and she discharged. In the same division Judge Preston heard petition in the estate of James F. O. Banning, the lately deceased member of the firm of Hoffschlaeger & Co., and ordered that temporary letters of administration issue to W. F. Allen, under a \$10,000 bond. S. B. Dole for petitioner.

Wednesday, Judge McCully, in the bankruptcy case of Lorin A. Andrews, ordered that the bankrupt be discharged. Chas. Creighton appeared for the bankrupt.

Thursday, before Judge Preston, the bankrupt case of J. H. Boyd was continued till the 29th inst. Charles Creighton for the bankrupt. In the case of S. J. Levy & Co., the same Judge ordered that Henry Macfarlane file his objections to-day (Friday) to the discharge of the bankrupt S. J. Levy. In equity before the same Judge, hearing was continued till the 27th inst., on a petition for partition in the case of Paaluh et al. vs. Koachulukea et al. H. E. Avery for plaintiff; A. P. Peterson for defendant.

The Shooting Case.

The examination of Soi Yung, charged with assault with a pistol on V. Fagerroos, was commenced in the Police Court yesterday morning, occupying the Court until half-past five o'clock in the evening, recess being then taken until seven o'clock, when the trial was resumed. The evidence on both sides of the case was all in at half-past eight. The testimony offered by the prosecution did not materially differ from the statements published, while the defense attempted to prove an alibi. Mr. Paul Neumann, attorney for the defense, made an able speech for his client, while Mr. Dayton did the same for the prosecution. His Honor Justice Bickerton then said that judgment would be given in the case on Monday next.

RECEPTION.

In Honor of His Excellency H. A. P. Carter.

An informal reception was given by Mr. and Mrs. P. C. Jones at their residence, Nuuanu avenue, last evening, from half-past seven till ten o'clock, in honor of their guest, His Excellency H. A. P. Carter, Hawaiian Minister Plenipotentiary and Envoy Extraordinary to Washington. Approaching the house a dazzling blaze of glory burst on the view, from innumerable Oriental lanterns arranged with fine effect. During the evening over two hundred ladies and gentlemen called to pay their respects to the distinguished guest, keeping Mrs. Jones busy receiving them and tendering them the hospitality of the house. The rooms and verandahs were thronged most of the evening. Under a canvas awning in the garden Prof. Berger had the Royal Hawaiian Military Band stationed, himself and his men in full regiments. The programme heretofore published was played, it is needless to say, to the delight of all within the sound of the music.

Prominent among those attending the reception were the following: Their Excellencies J. O. Dominis, Governor of Oahu and Maui; R. J. Creighton, Minister of Foreign Affairs, and J. T. Dare, Attorney General; Hon. A. F. Judd, Chief Justice, and Mrs. Judd; Hon. L. McCully, First Associate Justice, and Mrs. McCully; Hon. A. S. Cleghorn, C. R. Bishop, S. G. Wilder, with Mrs. Wilder, Paul Neumann, with Mrs. Neumann, J. W. Kalua and C. H. Dickey; His Excellency Geo. W. Merrill, United States Minister Resident, and Mrs. Merrill; Major J. H. Wodehouse, Her Britannic Majesty's Commissioner and Consul General; Mr. J. H. Feer, Commissioner for France, and Mrs. Feer; Mr. H. F. Glade, acting German Consul, and Mrs. Glade; Mr. F. A. Schaefer, Italian Consul; Mr. J. H. Paty, Consul for the Netherlands and Belgium, and Mrs. Paty; Mr. Taro Ando, Japanese Consul, and Mrs. Ando; Mr. F. P. Hastings, United States Vice Consul, and Mrs. Hastings; Mr. T. Rain Walker, acting British Vice Consul; Bishop Willis and Mrs. Willis, Rev. E. C. Oggel and Mrs. Oggel, and Major Rosa.

During the intermission in the musical programme, Mr. Jones called on Hon. C. R. Bishop, who read the following address to His Excellency Mr. Carter:

MR. CARTER—You have been a long time absent from us, engaged in the important service imposed upon you by His Majesty the King, and the opportunities for kindly greetings, during your short visit here, have been very pleasant for many friends. The importance of the interests which have been and are committed to your care, attracts the attention of all classes of this community to yourself—for they concern all—and throws upon you a responsibility which must, at times, have caused you great anxiety. In representing the Hawaiian Government at Washington, you have not only the honor of a high position, but you have at the same time the satisfaction of knowing that you are treating with a Government whose successive administrations have all been friendly and generously disposed toward the Hawaiian Kings and people; and that you represent a nation which appreciates and reciprocates that friendship, and which hopes that by a frank and honest presentation of all questions of mutual concern, the intimate and advantageous relations now existing will be perpetuated.

The consciousness of duty faithfully done, and of successful effort, are, no doubt, your best reward, but your friends here feel that they ought not to let you go away again without expressing in some degree their appreciation of the able and prudent manner in which you have represented the interests of this country in Washington, and so, on behalf of the Honolulu Chamber of Commerce, I am requested to give utterance to such expressions and to tell you that, as a slight token of their regard, provisions have been made for a service of silver, which will be sent to you from New York. And further, on their behalf and my own, I wish you a safe and pleasant journey on your return, a continuance of success in the service of your King and health and prosperity to yourself and country.

Mr. Carter was taken by surprise, but felicitously replied in an impromptu speech, in which he expressed his deep gratification at the appreciation with which His Majesty and Ministers, the Chamber of Commerce and the community, regarded his services as diplomatic representative of the Hawaiian Kingdom at Washington. He warmly acknowledged the heartiness of the welcome and the kindness of the hospitality accorded him on the occasion of this visit to his country, and returned his thanks to the Chamber of Commerce for its valuable token of regard and good wishes uttered in the address of presentation.

The callers were very affably greeted by the guest of the evening as they were presented to him and many enjoyed a few moments' conversation with him in spite of the throng. Social intercourse, with ice cream and other refreshments bountifully supplied till the close of the reception, as well as the music and brilliant surroundings, made the occasion one to be remembered with delight by all who enjoyed it.

Portuguese Beggars.

A lady was driving on one of the principal streets yesterday, with a little child in the carriage, when the horse shied at the well-known Portuguese beggar in his wheelbarrow, being trundled diagonally across the street in front. To prevent the horse running away, the lady placed the child in the bottom of the carriage, securing it with her foot on its clothes, and held the reins firmly with both hands. Our informant thinks, and his opinion will be generally shared, that it is time that the uncounted object in question was prevented from going about scaring horses. It is said he has amassed a good pile of money in his perambulations, and ought to be sent home to his own country. Complaint was also made to our reporter yesterday, that a Portuguese woman plied the business of a mendicant about town, to the annoyance of housekeepers. This woman is quite aged and apparently is suffering from some horrible disease, as her face and hands are covered with sores, and generally is a frightful object to behold. Begging is new to this country, being the most disgraceful corollary of Portuguese immigration. It is suggested that the present would be a good time for the authorities to impart a salutary lesson to people of that nationality, when an addition of half a thousand has just been made to their numbers.

The steamer Waimanalo goes on the Marine Railway this morning.

Memoranda.

The Am bark Edgemoor, Captain Jenks, arrived from Newcastle, N.S.W., yesterday forenoon, bringing 1,000 tons of coal. The following is a report of her passage:
Sailed from Newcastle, July 13th. Had light baffling winds and rain till July 25th, making but little progress at the time. Then had a gale from N.E., blowing in gusts, with hurricane violence for twenty-four hours, creating a very dangerous sea, flooding the ship and starting bulwarks and channels, and washing away everything movable. Ran the ship before the storm for sixteen hours, to avoid further damage. From July 25th to August 5th had a succession of heavy seas and very bad weather. On the latter date the wind shifted suddenly from N to W in a terrific squall, blowing away the foremast, fore-topmast and fore-main-topmast staysails. Was thirty days from latitude 30 deg to latitude 20 deg South. Had no trades till sighted Hawaii, on the 21st inst. From latitude 1 deg to 4 deg North had a two knot current setting west. Latitude 20 deg South, longitude 170 deg West, sighted Cerberus bark steering. E by S, showing R.L.V.T. From Hawaii to port had strong trades and squally. She is docked at the Pacific Mail wharf.
